

Environmental Policy

Custom Fluidpower Pty Ltd is committed to developing environmental responsible policies and practices in the production of quality products, processes and services. In maintaining this high standard, Custom Fluidpower Pty Ltd will take appropriate precautions to minimise any potentially adverse impacts of its activities on the environment, the community and its employees.

Custom Fluidpower Pty Ltd will maintain this high standard in a cost-effective manner by:

- **Environmental Protection and Enhancement**
Custom Fluidpower Pty Ltd is committed to improving the environment through the products, processes and services offered and provide these in a manner that protects human health and the environment. We will take appropriate action to correct any deficiencies identified
- **Environmental Responsibility**
We will strive to operate in a manner designed to minimise and where reasonably practicable eliminate releases to the air, land or water in amounts that cause harm to human health and the environment. We will focus on safe technologies and operating practices, and have procedures in place to deal with emergencies.
- **Waste Management**
We will exercise all due care in the disposal of waste produced by our activities and we will develop plans and actions to reduce waste, including the encouragement of recycling.
- **Environmental Regulations**
We will conduct operations in accordance with the relevant Environment laws, regulations and standards.

Custom Fluidpower Pty Ltd acknowledges its environmental responsibilities and ranks them equally with its other business objectives. Environmental management plans are an integral part of the overall planning and management processes, and will be reviewed on an on-going basis.

Mark O'Leary
Chief Executive Officer
